THE PROOF OF HISTORY

You may have heard the saying that some of the best opportunities are created during economic downturns. Much wealth was created during the great depression.

There is no question it was the worse time for many people, but did that mean all the opportunities dried up too? NO! In fact, thousands of people completely permanently changed their financial situations.

“The Unofficial Guide To Working From Home”

Over the last 100 years people have proven repeatedly that attracting money has nothing to do with having the right education or knowing the right people. It has everything to do with your mind and your beliefs about money. I've said it many times but it bears repeating: if you aren't doing as well as you like, the only person standing in the way is the one you look at in the mirror every day.

If you allow skepticism and negativity to dominate your thoughts and actions, it will soon devastate your bank account.

Contrary to popular belief, an economic downturn is a good time to start a business. Savvy online marketers realize that now more than ever, people are looking to make ends meet and you have an amazing opportunity right this very minute to position yourself to provide the solution using the nearest thing to a perfect online money maker ever invented!

And with my system, the conversion rates can be up to 60% and sometimes even higher!

Just think about it for a second. Almost every single person who takes what I give out for free, usually always ends up buying what I'm selling. And remember that just about everyone in this economy wants what I give away; they're almost lining up to get what I give out for free...and a huge majority of them will certainly end up buying what I'm selling.

What makes this even more extraordinary is the fact that what I sell is not actually all that different from what other people sell. In fact, you may well see other people selling the exact same things.

IMPORTANT POINT

This particular program that I am to share with you here is already set up with 17 very good Internet Marketing products, but you can copy this approach for yourself to market anything after you have some real-world experience.

So, even though this program does NOT have any one-of-a-kind or unique product, it does have one very unique key, almost *magic* ingredient that no one else has:

Everyone else is selling these products and as a result they only manage to make between 1-3 sales for every 100 people they present it to. That's crazy and a very difficult way to try and make any money.

I on the other hand, have added something extra! I've given people a real incentive to buy from me. I've made them an offer they can't refuse; an offer so irresistible that practically everyone who sees it simply can't help but make a purchase.

“The Unofficial Guide To Working From Home”

(Well, it's actually about 50-60% which is a little short of “everyone”)

The important point is that you are going to be to one who benefits and profits 100% because of the incentive in my system! I get nothing extra!

What I'm about to say next is a key part of my system, but IT IS NOT the final twist that makes this system so special. You have to stay with me and hear me out. Trust me it's worth it!

I sell a collection of highly concentrated, industry-leading information products, specifically designed to teach, train and assist you in becoming a more successful and profitable Internet marketer... you name it, it's in this package.

You Can See the Entire Package at the End of This Report.

Anyone who's interested in starting or is working with Internet Marketing as a means to create additional income in this recession is going to want at least some of these things that this package offers. Most people have already bought products that are similar to or on the same topics as some of the items included in this collection, but there are bound to be some they don't yet have and will appreciate getting their hands on them to use...especially at such a ridiculously cheap discounted price!

Still, if I just tried to sell them from a normal website like everyone else is doing, I would probably get the normal results; between 1-3% sales and even getting those returns would be difficult, time consuming and costly to advertise. Who can afford that in this economy?

Even though anyone who's trying to make money online is going to “need” these products at some point, the fact is that the vast majority of people simply won't buy these exact items from me or one of my websites – just too much competition out there.

There are so many other people selling the same information and tools under different names and from different websites, that competition is extremely fierce and 1-3% is all a normal website with normal selling strategies could ever expect to make.

But I've flipped the situation on its head. Instead of having only 1-3% of people who see my offer actually buy from me...I now have actually had days where only 1-3% of people walk away and **didn't** buy from me.

I've completely reversed the trend and I've achieved all this without ever “trying” to sell anything. I haven't got a fantastic sales letter written by an expert copy writer and I haven't got some super effective advertising campaign that is saturating the Internet or a first page listing on Google.

What I do have is an incredible incentive that convinces an extremely high percentage of people when they see this offer, that only a person that just plain doesn't “get it” would

“The Unofficial Guide To Working From Home”

pass this purchase up.

It's an incentive that makes every sale almost a foregone conclusion. An incentive that means making the sale is a virtual certainty.

It's an incentive that means my computer becomes almost like my own personal ATM that I can withdraw money from whenever I want.

But What If It Was You Instead of Me?

Like what if you could somehow magically “step into the shoes” of a veteran marketer?

Keep reading and get ready to use a little imagination on that last thought...

Before I reveal the final twist, I want you to imagine that this fantastic system I've described is not mine...it's YOURS!

Imagine it was not me selling this product with the magic incentive that converts up to 60% sales...it is YOU!

Imagine that you were giving away for free, something that people were lining up to get and then up to 60% of those people ended up stuffing cash in your pocket for a product you promote.

That would be the dream system for you wouldn't it?

Well that's precisely what You're going to get!

Let me tell you what my system is. And remember:

THIS IS NOT THE FINAL TWIST! YOU HAVE TO KEEP READING!

I give away something for free that every person on the planet is interested in. I give away an ebook that explains a system that **shows people how they can make easy money online...** this ebook.

You wanted to find out for free how you could make easy money, so you downloaded this book without hesitation....and that's exactly what everyone else does.

**It doesn't take a lot of effort or talent to give away a FREE report on
“How to Make Fast, Easy Money Online”
(in fact, it's about as easy as anything could possibly be)**

In this free ebook, I promote and sell a professional collection of Internet marketing

“The Unofficial Guide To Working From Home”

products and the clever part is, I manage to sell this product to over half the people who read this ebook.

Yes that even includes you. In fact I can almost guarantee that you will buy the product being sold here and so will almost everyone else who reads this after you.

NOT because it's a collection of products that has been keeping you awake at night because you wanted them so badly, but because they are in fact good, usable products that can be helpful to any Internet Marketer and MUCH MORE IMPORTANT is that they are **the gateway to plugging you into a system that can almost effortlessly bring you in a couple hundred dollars a day income. That's why!**

I think I know what you're thinking, but stay with me because here comes the best part...
The Final Twist!

When people hit the payment button and buy the product from this ebook, it's not my payment button....IT'S YOURS!

People will visit your personal website that looks identical to mine and download this same ebook; but it won't be mine, it will be yours.

(I even set it up for you, so there is no hassle and you get to own a turnkey Internet business that makes \$3000-\$9000 a month).

Also, I even set up your customers websites and their customers, customers... all you do is send people to your website and collect your money...that's it!

I could easily bet that you are not reading what is really my web page right now. Sure, I wrote it and I created the system, but odds are this is somebody else's site that has already grabbed this amazing system to use as their own just like you can now.

When a person decides (like they most often do) to buy the product, every penny they pay will go directly to you. I won't get a cent, there's nothing in it for me; it all goes to you. You are not an affiliate that only gets a percentage of the payment – YOU GET ALL OF IT!

Did I just hear your brain go Ca-Ching!!!!?

That is the real secret to why this is so powerful. When you buy the product from this ebook, you'll get one other VERY IMPORTANT thing thrown in as an added FREE bonus. The magic incentive that convinces almost every reader of this book to make a purchase!

You'll get the right to re-sell this collection of products as if it was your own using your own personal identical copy of my website that I set up, my marketing materials and a

“The Unofficial Guide To Working From Home”

copy of this exact ebook with YOUR payment link.

All you need to do is fill out a very quick and easy form after you purchase telling me some very basic information and the email address associated with your Paypal, or AlertPay account and click “submit”. When you do that, your website will be set up with your payment button in this ebook instead of mine and you will start to receive 100% of the payment directly into your account!

From then on, whenever someone downloads your “copy” of this ebook, you'll be the one they buy the product from. You keep every single penny and I get absolutely nothing. Just like what is happening right now as I'm sure the payment button in this ebook you're reading is probably not actually mine.

You can see how the system effectively becomes completely yours.

I set up the website, I set up your customers website and their customers customers, I wrote the ebook, I put together the product package and I created all of the marketing and sales materials.

Heck, I even handle the hosting and delivery of the products and I'm here to work with anybody that needs help, but now you are making 100% of the money from it.

You might want to re-read those paragraphs as yes; you get everything I have created and built to use as your own, totally yours - 100%

If you can just get your head around how unusual this is, I'm pretty sure you'll agree this is probably the easiest no-brainer thing you've ever seen right?

Well that's why this is so fantastic. Almost everyone who reads this thinks exactly the same thing and buys so they can get in on this crazy deal. At this point, people don't care whose payment button it is – it makes absolutely no difference in what they get. As I said earlier, I'm sure you are probably not on my personal site right now – so what? - Right?

Of course, you want it to be your payment button on the system. So you buy the product to be able to add your pay link into this book...and that's precisely what everyone else does and it's what generates up to 60% conversion rates.

Simple but extremely effective!

I know of no better way to instantly be plugged into a proven money-making

“The Unofficial Guide To Working From Home”

business that has already been totally set-up for you.

This works on PC and Mac.

And by now you obviously want to get this powerful system to use as your own and start using it, but you may be thinking:

Because I know you have some questions, I've put together a list of frequently asked questions (FAQ) below, starting with the MAJOR ONE most people ask me:

Question #1: I get what you're saying, I understand how the system effectively becomes mine, but how can you offer me a work-from-home opportunity where I make all the money and you make nothing? And where's the “catch?”

Answer: There's no “catch” with **No-Money-No-Problem**, but there is a *method to my madness* – because I know people must think I'm crazy for offering an opportunity like

“The Unofficial Guide To Working From Home”

this.

I really don't make any money when someone buys from you. The entire system honestly becomes completely “your deal”.

The *method to my madness* and the reason I give you 100% of the profits and I get nothing is because of this: it's called **Building Authentic Relationships**.

Although the Free website and report that I'll setup and host for you will be yours, the fact remains that everyone will know that **No-Money-No-Problem** is a Frank Jones product. You will be helping me build authentic relationships with everyone who comes into contact with my system.

The current mindset of the typical “me too” marketer is “get a customer to make a sale.”

THAT'S BACKWARDS. My “new rules of Internet marketing” clearly state the money is in the relationship. With relationship as priority number one, my goal is to give away a Free Quick-Cash Formula and build trust, rapport and a solid, authentic relationship. I offer a variety of powerful online marketing tools designed to specifically help people make more money online in addition to **No-Money-No-Problem**. **That's what I do – I show people how to pull cash out of the Internet using their computers and an Internet connection.**

The important thing for you to remember is I know this will work for you, ALL the hard work has already been done by me and it's proven itself to be brutally effective.

Question #2: How do I get people to my website if I have no Internet marketing experience?

Answer: It's not a problem. In a series of highly concentrated training modules available in my members area after purchase, you'll learn exactly and step-by-step, EVERYTHING you need to know to succeed with this business...all in one place.

As part of your product download, you'll also gain immediate access to my extensive Free **ready-to-use** marketing tools that quickly get you earning money.

Even if you have No marketing experience, I show you exactly the best step-by-step methods to promote and drive targeted traffic to your website that are all either free, or practically free and proven to work.

Question #3: I've already been down this road and tried promoting other products and never made any sales. How is this any different and how can you be so sure it'll work for me?

Answer: If you think about it for a minute, the first step in having a successful business

“The Unofficial Guide To Working From Home”

(online or offline), is to provide a product or service that people want. It has to be in demand and people have to be actively looking for what you're offering.

This product is in demand and people are actively looking for this type of solution online.

Most people that you send to your website will download your free report. And of those people who download your free report, many of them will make the purchase so they can have their very own free **No-Money-No-Problem** website with the “magic incentive” that will make them quick-cash with a totally turnkey, automated system just like you will be doing.

The one thing that makes a successful Internet marketing entrepreneur successful - the one thing that really makes a difference and separates those who “try” from those who actually succeed - is KNOWLEDGE of “HOW”.

Once I give you the knowledge of “HOW” and tell you what to do with it, (which I will in the members area), you'll see how easy it is to make money and gain some momentum... you won't be able to stop it.

Question #4: Why are so many people prepared to buy this program compared to all the others?

Answer: It's easy. You're going to be giving away a free report on how to make quick-money to people already actively looking for how they can earn extra money online to use for “*making ends meet*.”

Using the Google Keyword Tool, I just performed a search based on popular keyword phrases of common search-terms people looking to make money online use and here's a few results:

1. “**make money online**” (searched **823,000** times a month)
2. “**work from home**” (searched **2,174,000** times a month)
3. “**home based business**” (searched **550,000** time a month)

And that's just a tiny sample, of all the related searches people are doing on a monthly basis. There are millions, upon millions of searches done every month by people looking to make money online. Feel free to do your own research – don't just take my word for it.

YOUR free report will tell these people (already actively looking to make money online) how they can make quick-money online without the need of knowing how to set up a website, without ever trying to sell anything, without having to share any of the money

“The Unofficial Guide To Working From Home”

they make and without any ongoing fees or expenses.

Who wouldn't be interested in reading a free report that does all that and solves their money problems in the process.

KEY NOTE: When you can provide a solution for a large population of people, you have *the perfect formula for online success*.

It won't be hard to give away this report, because as I showed you in the example above, (which was just a small sample), people are already out actively searching for this kind of information (**a solution**) to help them make some extra money online in this economy. Most people who come across your site will download your free report with little to no resistance. Didn't you?

What you need to wrap your head around, is the reason *why* people are prepared to buy **No-Money-No-Problem** above all others.

They buy because of the “magic incentive” that allows them to effectively turn this system into their own by getting their **own** Paypal or Alertpay payment link on their **own** free money making website and a re-branded copy of this report that allows them to instantly plug into a quick-money system just like you have.

If someone is looking for a way to make extra money online, why wouldn't they want to be in business within 24 hours or less **and** have all the hard work done for them by utilizing an already tested, optimized and proven turnkey system?

Just like you, the people reading your free report will see the exact same potential. The system just makes sense. There is no fluff – no filler – just a rock solid business built around a logical and straight-forward business model that's brutally effective in the way that it makes people money.

It becomes a no-brainer as to why my system is the *only* and *obvious* choice.

And at only \$47, (yes, ONLY \$47) it's a one-time payment that's affordable for just about everyone – even those on a shoestring budget. For most folks who contemplate a home business, a low-cost solution is not only nice, but also very necessary.

People need to make money and often times, have very little money to spend. When you can provide a high-quality money making solution at a rock-bottom price, it makes the buying decision that much easier and the risk, practically zero!

And it's called, “No Money? No Problem!” for a reason.

This is good news for you for a couple reasons:

1. *If the price was higher, people might need to think about it. But when you can give*

“The Unofficial Guide To Working From Home”

them all this for only \$47, the average person who's serious about making some money online won't even think twice.

2. People are smart enough to realize that with just one sale, they've made their money back. Unlike the average business, there's no waiting around to recoup start-up costs. It's almost a risk-free opportunity too good to pass up!

Question #5: What exactly is Paypal and Alertpay? How do I open an account with them? Does it cost money?

Answer: Paypal and Alertpay are very simple online payment processors used for selling things online from websites. To open an account, you just need to visit their respective websites at: www.PayPal.com or www.AlertPay.com. Select an account type based on your specific needs. But make sure you choose an account that allows you to accept website payments.

In most countries around the world, you'll be able to use Paypal, (which is the most popular payment processor) as your payment processor. In some countries, you won't. In that case, you'll want to use Alertpay.

When you complete step 4 in the members area to get your website online, (as described above), you'll give me the email address that is associated with either your Paypal or Alertpay account, depending on which payment processor you choose. This will ensure that the multiple \$47 payments you'll be receiving, go directly to your account where they can be transferred immediately to your bank.

Question #6: Do I have to rebrand this ebook myself, or otherwise do anything (like know about HTML) to get my website online?

Answer: No you don't! I do all of that for you. Your only job will be to send people to your website and my comprehensive training modules show you exactly “how” to do that. Remember, this is designed to be a completely turnkey money making system that you simply need to plug into. It's simple and easy.

Question #7: Will I ever have to give refunds to any people who buy from me?

Answer: That's a great question! I can't think of one good reason why anyone would want a refund. Especially since this ebook (and having direct access to emailing me any specific questions before purchase), fully discloses exactly what this business *is and is not*, before they buy.

I want you to be an educated consumer so you can make an informed purchase and that's why I hold nothing back and give you direct access to me via email – and I do answer my emails.

“The Unofficial Guide To Working From Home”

With that said, there are **never** any \$47 refunds from the purchase of this product. The product everyone buys to qualify for their Free website, is a collection of digital information books and that is impossible to really return once they are downloaded. Everyone who buys the package agrees that they can not request a refund. All sales are final, which means you always keep every penny.

Question #8: What if someone has a problem with their downloads, or completing the steps to getting their Free website online?

Answer: I promised you that you would not have to do any kind of customer service – and I meant it. I deal with any support-related issues for you, so there's no need for them to ever contact you.

As outlined in step 2 above everyone knows to email me their receipt as proof of purchase by forwarding it to me at: Support@No-Money-No-Problem.com so they'll come straight to me if they ever have any problems or even just questions they need help with.

Question #9: What if someone has a question about the system or how it works

Answer: Almost the same as above. This is the best part. You never have to answer any questions...they come directly to me and I do all the answering for you. I will honestly do my best to close the sale on your behalf. I was serious about having a vested interest in your success, so I will do the work and you will make the money. I never see a penny...ever!

Question #10: How long will it take for you to get me setup?

Answer: From clicking the payment button to completing the submission form in the members area, (step 4), it will take you about 10 minutes or less. After that, sit back, take a look at my training modules and I'll have your website online within 24 hours.

Often times, I can have your website online sooner, but due to the varying volume of orders day to day and the fact that I manually configure and upload websites, it may take up to 24 hours – which is what I guarantee.

NOTE: To make this process more streamlined and to get your website online quicker, I **ONLY use domain names registered through GoDaddy**. It's simply too time consuming to learn the many different back-office control panels of the countless host providers out there for me to be efficient.

I do not make money by you buying your domain name through GoDaddy. That would require me to be a reseller of their products and have a special link for you to click – I do not have any of that.

“The Unofficial Guide To Working From Home”

I personally host your website, (this is the only option because it allows me to control content and not let people alter the website, or otherwise misuse it) for life. **There is a one-time \$10 setup fee** and you don't pay that until you get to the members area. You just need to purchase your domain name through **GoDaddy.com**

Question #11: I can't believe this is real.

Answer: This is very real and feel free to email me with any questions or concerns you might have. You'll see that there is a very real person ready to help you with this business.

Contact me at: support@no-money-no-problem.com

Question #12: This all sounds like a good deal, but I think I'm going to need to think about it.

Answer: It's good to think about it, sleep on it if that's what you really need to do. But let's quickly put this into perspective to make this easier for you to understand.

I don't need to tell you that selling on the Internet is hard. And if you're like the average person with little to no marketing skills to speak of, it can be extremely difficult. There's also a lot of competition and many of those competitors have a heck of a lot more experience than you do and have deep pockets for advertising.

Giving something away for free that a large population of people are looking for in this economy, especially something like a free ebook on how to make money online is easy.

(You still with me? Something HARD vs. Something EASY)

Who has time to wait? Especially in today's economic conditions.

My customer attraction techniques I create for you are always changing, always evolving. The goal is to help you focus on rapid implementation and shortcuts that

“The Unofficial Guide To Working From Home”

save you time, money and frustration.

Don't be an Internet marketing statistic by falling victim to gimmicks and programs that leave you feeling dirty the next morning and still asking what now?

Many people will take you up on your offer for this free book on how to make quick money online and then will be exposed to this simple system, where they will not need to create or even upload a website, do not have to worry about products or delivery, do not have to deal with any customer support issues and they receive 100% of the money – no splitting with anybody.

Also, they receive a collection of products that are currently being sold online for over \$500 and this has to be a great deal for them even if they end up personally using only 2 or 3 of them.

Finally and very important, is you gain **instant access** to my comprehensive training modules, which are packed with information on *how* to use no-cost and low-cost methods to drive a ton of traffic to any website.

These training modules are specifically designed for people who have NO experience starting an online business, so they will handle you with kid-gloves and show you every single detail of how you need to operate to start making money with your new business.

You get a complete turnkey online business, over \$500 worth of Products that you can use and resell, comprehensive training, industry-leading support and all for a one-time investment of only \$47 – a domain name purchased and registered through GoDaddy.com and my one-time \$10 setup fee to have your website displayed online and hosted for life!

All they have to do is click the “*Sign up Now*” image below and they are in business and you have \$47 in your Paypal or Alertpay account just like that.

Believe me --- Making money online just does not get any simpler or easier than this. In fact, if I made it any MORE simple, I'd have to sign you up myself, so you wouldn't have to lift a single finger!

Question #13: Sounds good, but how long is the going to take to get started – I need money NOW!

Answer: A good question, but very difficult for me to answer as it depends so much on

“The Unofficial Guide To Working From Home”

the person using the system. I have people all of the time that email me saying how they bought the system a week ago or 2 weeks ago and are just now looking at everything and have a question, or just now sending their receipt as proof of purchase.

If you are one of those people and let the information collect virtual dust on your computer then it could be a very long time indeed before you make any money.

Thought + Action = Results!

If on the other hand, you're the type of person that will immediately dive in, take time to read my comprehensive training modules and start placing ads using not only my pre-written ads from my **extensive marketing tools section**, but follow my other proven recommendations; it's very possible to have a **multiple sales** overnight with the cash sitting in your Paypal or Alertpay account waiting on you by the next morning.

Question #14: What if I buy and then need help placing ads, writing ads, or something like that?

Answer: My highly comprehensive training modules literally teaches a person who knows absolutely nothing about making money online, every step-by-step process involved from A-Z. Even things I would normally assume people know (like how to copy and paste) is shown to you. And if you still have questions, I'm only and always just an email away.

I'm always ready to help and give suggestions on any marketing challenges you may have.

Question #15: Can I build a list of subscribers?

Answer: The short answer is yes, you can build your own personal list of opt-in subscribers... but I do it a little different.

There are two ways you can build a list with this system. If you have the ability, you can create your own squeeze page(s), get a domain name and hosting for them and write your own messages.

Or, you can simply plug-in to one of my turnkey squeeze page & autoresponder packages I offer in the members area. They are completely optional of course, but many people realize the importance of follow-up marketing and like the fact that they don't need to have any technical or copywriting skills to take advantage of a follow-up marketing system that has already been professionally done and proven to work.

And yes, every subscriber is yours and you can market anything you want to them.

Question #16: OK, I trust you. This really is the best, most honest and straight-forward thing I've ever seen. I'm still in shock but I'm not going to waste another minute...what do I need to do to get started?

“The Unofficial Guide To Working From Home”

Answer: All you have to do is click on the “*Sign Up Now*” image below and you can get started in just a few minutes.

You will be pleasantly surprised by just how easy and simple this is. But I am always just an email away if you have questions or need help.

I am so glad I tried this system because I read it over and over and could feel that It would work. Now I really can step it up with this business. Thank you so very much for such a GREAT program that has allowed me to make money for the first time of all these years of trying one program to the next, only to waste money time and again.
